A Special Circular for intensive and focused COVID-19 campaign.

We are aware that COVID -19 (Corona virus) situations makes for an anxious time for many members of our communities, especially those who have pre-existing health condition, family members in high-risk groups, or friends and families in other affected countries.

The outbreak of Corona virus disease (COVID -19) has been declared a Public Health Emergency of International concern (PHEIC) and the virus has now spread too many countries and territories. While a lot is still unknown about the virus that causes COVID – 19, we do know that it is transmitted direct contact with respiratory droplets of an infected person (generated through coughing and sneezing). Individuals can also be infected from touching surfaces contaminated with the virus and touching their face. While COVID – 19 continues to spread it is important that communities take action to prevent further transmission, reduce the impacts of the outbreak and support control measures.

The protection of children and educational faculties is particularly important. Precautions are necessary to prevent the potential spread of COVID -19 in school setting; however, care also must be taken to avoid stigmatizing students and staff who may have been exposed to the virus. It is important that COVID -19 does not differentiate between boarder's ethnicities, disabilities status, age or gender. Education settings should continue to be welcoming, respectful inclusive and supportive environments to all.

Together we will win this fight against COVID – 19 by always wearing a mask / face cover, especially when in public places, by maintaining a minimum distance of six feet from others, and washing our hands frequently and thoroughly with soap and water and frequent use of Alcohol based hand sanitizes. I am happy to share with you the safety measures given by the ICSE Board to protect our lives.
